Multiple Purpose/ Multiple Unit leased commercial complexes with variable office, industrial, retail uses & space open to the public

-1 parking space per 150 square feet gross floor area

Nonclassified Uses (SIC 99) As determined by BZA

Average Parking Space: 9' x 18' OR 10' x 20'

§ 153.065: SIGNAGE*

*All new, refaced, and temporary signs require a permit from the Advisory Plan Department.

-Not more than 150 square feet of the total sign area shall be permitted for any one building.

-No sign or part thereof shall be attached to or extend over any public street right-of-way.

-The area of a sign or advertising structure shall be calculated by multiplying its maximum vertical dimension by its maximum horizontal dimension, if the sign is combined on a single sign face. If separate letter or symbols are used and attached independently, the actual size of each component shall be calculated to determine sign size.

-A double faced sign may be erected having the allowed sign area on each side of the sign; provided, the maximum dimension between the two faces of the double faced sign shall not exceed 24 inches or 10% of the maximum dimension of the face of the sign whichever is the lesser.

-No sign or advertising structure shall be erected at the intersection of any streets in such a manner as to obstruct free and clear vision of operators of motor vehicles, or interfere with, mislead or confuse traffic.

- See § 153.061 for separate Vertical Sign requirements.

-Lights used to illuminate signs or advertising structures shall be so installed as to concentrate the illumination on the sign or advertising structure and to minimize glare upon a public street or adjacent property.

-Signs may be painted upon the surface of a building; provided, however, that when such signs are so located to face a residential district, any lights on the signs shall not shine directly at the residential district.
